

# On Common Waters – knowledge provides operational readiness for aquatic management and restoration

## NEED

Efficient cooperation in aquatic management, knowledge communication and transformation to citizens

## APPROACH

Social networking,  
collaborative  
publishing platforms,  
interactive workshops

## BENEFIT

Active residents, applying scientific and monitoring results to practice

## COMPETITION

Traditional knowledge dissemination routes and activities initiated by authorities.

*Project Operators: Pyhjärvi Institute, Lake Vesijärvi Foundation, Union of Finnish Water Protection Associations and regional member associations in the regions of Kokemäenjoki, Vantaanjoki and Helsinki, Länsi-Uusimaa, Savo-Karjala and Saimaa.*
